
ABOUT GOYORK 2045

MISSION STATEMENTS

York County Planning Commission – Guiding sustainable development and preservation to improve quality of life in York County Communities.

rabbittransit – rabbittransit dedicates itself to providing its constituents safe, reliable, and customer-centered mobility services consistent with the stewardship of its resources.

PennDOT – To provide a sustainable transportation system and quality service that are embraced by our communities and add value to our customers.

TITLE VI COMPLIANCE

This report was funded in part through grants from the Federal Highway Administration and Federal Transit Administration, U.S. Department of Transportation. The views and opinions of the agency expressed herein do not necessarily state or reflect those of the U.S. Department of Transportation.

ABOUT YAMPO

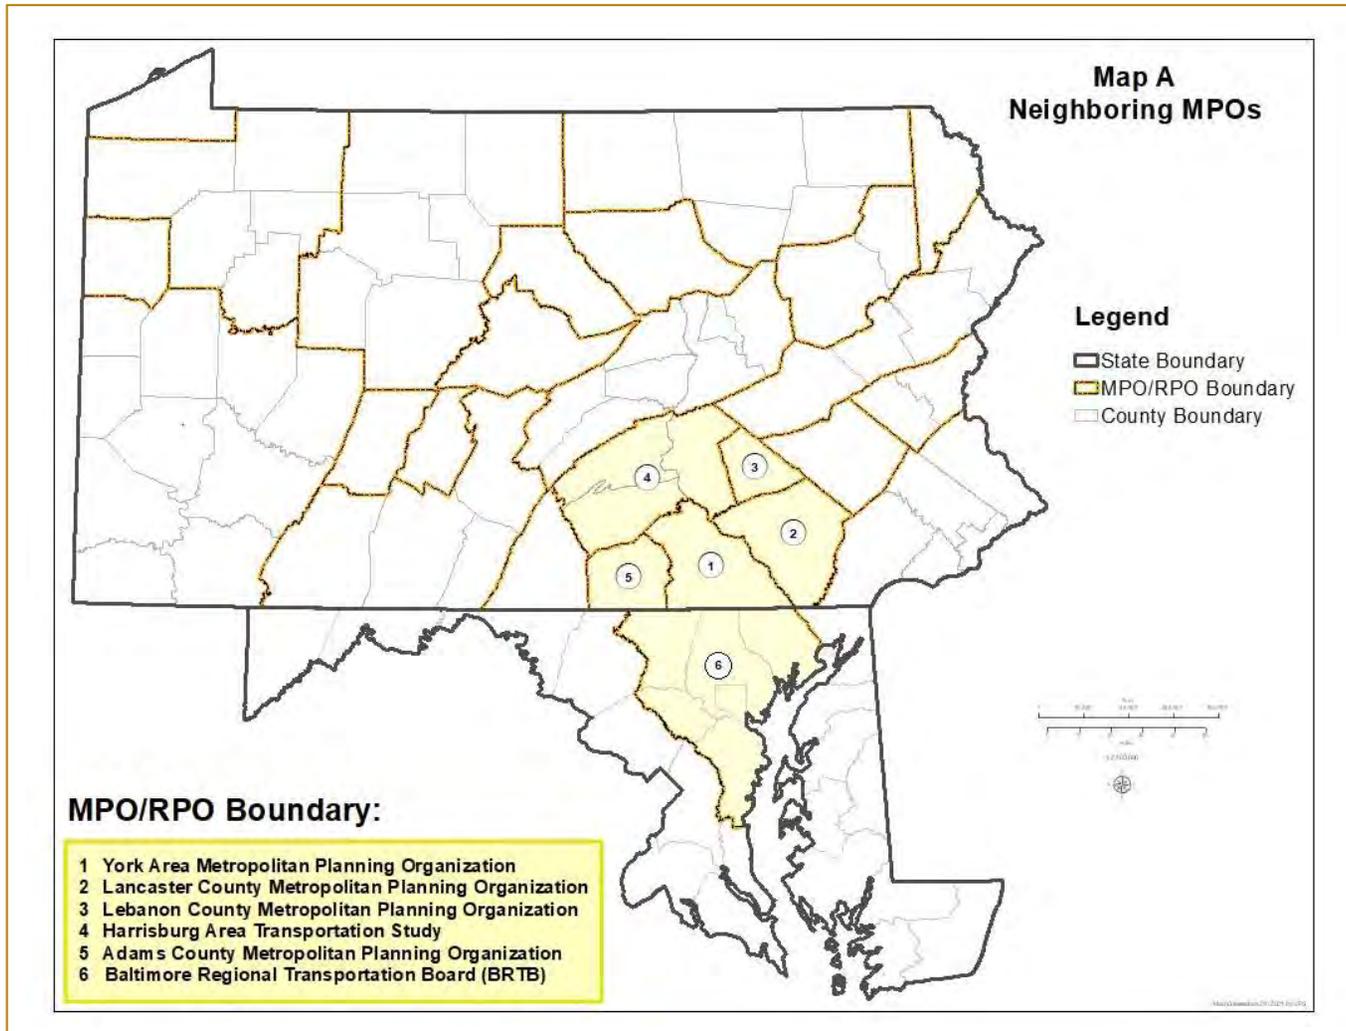

Established in 1964, the York Area Metropolitan Planning Organization (YAMPO) is the federally designated decision-making body for all transportation projects and programs that utilize federal funding within York County. Staff from the York County Planning Commission, PennDOT, and rabbittransit support YAMPO and provide the data, research, outreach, and guidance needed to make policy decisions. The primary objective of YAMPO is to produce a guiding document, called the Metropolitan Transportation Plan (MTP) for the federally funded transportation investments.

This document, GOYORK 2045, replaces the MPO’s previous plan adopted in April 2017, and meets the requirements to update the MTP at least every four years. Although, required to lay out a financial investment plan for the next 20 years based on available federal resources, GOYORK 2045 is much more than just a financial portfolio. Since needs are greater than the anticipated public funding, the goal of our community could never be achieved by only relying on the public sector’s funding and efforts. This plan attempts to create areas of focus that provide public and private stakeholders a framework to combine resources and achieve the transportation network the citizens, businesses, and visitors to York County desire.

GOYORK 2045 gauged the public’s opinions on the Goal and 19 different objectives. At least **90%** of the total 333 survey responses supported the individual objectives and **98%** of the participants supported the goal, or supported with a few changes.

It is important to remember that the transportation network is a tool that allows people to achieve their personal goals such as education, job opportunities, healthcare, travel, and recreation. The goals that we set are complex in order to manage the individual aspects of the transportation network. Prioritizing projects needs to be data driven and fiscally responsible, and can often result in pushback from neighbors, municipalities, PennDOT, or FHWA.

YAMPO is one of 23 planning areas within the state of Pennsylvania. We share a boundary with 5 other MPOs, as shown in Map A.

*Please take GOYORK
2045 for a drive and let
us know if this plan will
help you and your
neighbors live a better
life, however YOU define
better.*
